

Schedule B

Unless otherwise provided in this Schedule, capitalized terms have the meanings set forth in the Settlement Agreement.

SCHEDULE “B”

Mileage Allowance for Buybacks and Buybacks With Trade-In

To determine their Vehicle Value and, if applicable, Fair Market Value, Eligible Owners of Generation One Eligible Vehicles choosing a Buyback or Buyback With Trade-In must provide the Claims Administrator with their vehicle’s actual mileage (“**Current Mileage**”) no more than twenty (20) days before surrendering their vehicle to an Authorized Dealer (the “**Surrender Proxy Date**”).

Vehicle Value and Fair Market Value will be determined by the CBB Condition Category that applies to the vehicle based on its Current Mileage on the Surrender Proxy Date provided that, when the vehicle is actually surrendered to an Authorized Dealer, the mileage is within zero to 2000 kilometres, inclusive, of the Current Mileage (the “**Allowance**”).

If their vehicle’s mileage is within the Allowance when it is surrendered to an Authorized Dealer, Eligible Owners will be able to complete the Buyback or Buyback With Trade-In for a payment amount based on the Vehicle Value and, if applicable, Fair Market Value, provided other requirements are met.

If, on the other hand, their vehicle’s mileage exceeds the Allowance when it is surrendered to an Authorized Dealer, their Vehicle Value and, if applicable, Fair Market Value will no longer be considered valid and, as a result, Eligible Owners will not be able to complete the Buyback or Buyback With Trade-In, or obtain any payment, at that time. In such circumstances, Eligible Owners will be required to restart the process of scheduling a Buyback or Buyback With Trade-In, subject to an Authorized Dealer’s availability, and to establish a new Vehicle Value and, if applicable, Fair Market Value with a Current Mileage on a Surrender Proxy Date.
